

Portable dissolved oxygen meter MW600 - D.O.

Portable dissolved oxygen meter MW600 is an instrument for simple applications that measures dissolved oxygen.

It is suitable for educational, aquaculture, environmental and water analysis.

It needs battery to be used, so no power grid needed.

Descrizione

- Dissolved oxygen measurement
- LCD display
- Built-in rechargeable 9V battery
- Calibration on 2 points
- Probe included

Caratteristiche tecniche	
Ambient temperature	0 - 50°C / 32 - 122°F; max RH 95%
Item	107.2002.51
Probe	MA840 (included)
Temperature compensation	Automatic from 0 to 30°C
Battery type	V9 Alkaline (included)
Battery life	Approx. 70 hours
Packaging dimensions	268x122x118 mm
Packaging weight	880g
Oxygen range	0.0 to 19.99 mg/L
Oxygen resolution	0.1 mg/L
Oxygen accuracy at 25°C	± 1.5 full scale
Calibration	Manual on 2 points (0 e slope)
